

DIY Waterproofing and Damp-proofing solutions.

Damp Doctor – Grout Sealer

Discussion

An invisible coating that waterproofs existing grout, as well as preventing algae growth and dirt retention on all tile grout applications. Porous grout in shower cubicles allows water seepage. If no hair line cracking is evident in the grout; the application of *Damp Doctor Grout Sealer*, can often remedy the problem without going to the costly expense of lifting the tiles.

Physical Properties

Colour:	Clear
Application:	Spray.
Coverage:	4-6m ² /L
Total Solids:	+/- 12.5%
